

AMENDMENTS TO THE CLAIMS

Listing of the Claims:

Following is a listing of all claims in the present application, which listing supersedes all previously presented claims:

Claims 1-4 (Canceled)

5. (Currently Amended) ~~A The solar cell module comprising: according to claim 1,~~

a light transmitting member on a front surface side containing at least sodium, a rear surface resin film, a plurality of solar cell elements sealed with sealing resin between the light transmitting member on the front surface side and the rear surface resin film, and a water transmission preventing layer arranged in a position including at least an interval part between the solar cell elements adjacent each other.

wherein the water transmission preventing layer is a plate glass bonded on a surface of the rear surface resin film.

6. (Previously Presented) A solar cell module, comprising:

a light transmitting member on a front surface side containing at least sodium, a rear surface resin film, a plurality of solar cell elements sealed with sealing resin between the light transmitting member on the front surface side and the rear surface

resin film, and a water transmission preventing layer arranged in a position including at least an interval part between the solar cell elements adjacent each other,

wherein the water transmission preventing layer is formed on a plane with the solar cell elements.

Claims 7-9 (Canceled)

10. (Currently Amended) ~~A The solar cell module comprising: according to claim 1,~~

~~a light transmitting member on a front surface side containing at least sodium, a rear surface resin film, a plurality of solar cell elements sealed with sealing resin between the light transmitting member on the front surface side and the rear surface resin film, and a water transmission preventing layer arranged in a position including at least an interval part between the solar cell elements adjacent each other,~~

wherein the water transmission preventing layer is a plate glass having a thickness between 0.005 and 0.1 mm bonded on ~~the~~ [[a]] rear surface resin film.

11. (Canceled)
